MEETINGS, INCENTIVES, CONFERENCES & EVENTS

We put our experience at your disposal to obtain the best results, making a difference. We know that we can guarantee that benefit you are looking for.

- Meetings & Seminars

Meetings are one of the simplest and most useful tools to communicate. Independently of the theme, we are here to help you achieve success. Tell us your objectives and we can get started. Shall we begin?

Staff meetings, with clients or suppliers are one of the most important tools for making decisions, sharing ideas, developing new ones, bringing together all the criteria.... These corporate events are essential for communication in the day-to-day business for companies.

Planning, organising, development and evaluation. We help you with all of this and with all the coordination of venues, material and catering required for the atmosphere to be as relaxed as possible!

- Incentives

An incentive trip is one of the most powerful tools we have to motivate workers, improve their productivity and strengthen the corporate brand. They also help us to recognise the value of personal ties with our best clients and appreciate their loyalty.

To develop the use of incentive trips as a way of working those ties within the company and improve teamwork will also bring good results: productivity, a sense of belonging and motivation.

CONFERENCES & CONVENTIONS

If communication is the main objective we know the venue, decoration, lighting and many other factors to be taken into consideration that transmit as much as any words. We only want professionalism, quality and security at our side. Which is why we deal with the best suppliers and coordinators and we take such care with the smallest detail, so that everything turns out perfectly.

At conventions we want to transmit the best image of our company. Always customised to your requirements, we can plan in a detailed and measured manner each step to be taken for the result to be a great success. EVENTS

Corporate Events and Extraordinary Experiences.

Create physical and emotional engagement with a brand or product. Associate the product with the equity of another brand (sports or music sponsorships).

Gain earned media through social and press mentions.

Create an opportunity to grow relationships with participants beyond the physical experience through digital interactions.

Like events, experiential activations - often integrated with digital activations - offer prolonged, meaningful interactions with a brand that can help build brand affinity.

And like events and other brand experiences, the quality of the experience itself will determine the amount of engagement, earned media, or brand affinity it produces.

We have a wide variety of tours to enjoy from Panama City and its surroundings:
